APRIL

# Get The Facts

about organ, eye and tissue donation.

## FACT: WHAT IT MEANS

Registering as an organ, eye and tissue donor means you have made the decision to donate your organs, eyes and tissues at the time of your death.

## FACT: ANYONE CAN REGISTER

Anyone—regardless of age or medical condition—can register as a donor.

## FACT: MEDICAL CARE

Your decision to be an organ, eye and tissue donor will not interfere with your medical care. Doctors and nurses caring for you before death are not involved in the donation process.

## FACT: LIFESAVING IMPACT

Just one donor can save up to eight lives through organ donation and save or heal more than 75 lives through eye and tissue donation.
