

# SAVING MORE LIVES THAN EVER BEFORE IN 2022

Record breaking year for organ donors,  
transplants, and lives saved.

**278**

**ORGAN DONORS**

18% Increase • 44 more donors than 2021

**829**

**LIFE SAVING  
TRANSPLANTS**

29.1% Increase • 187 more transplants than 2021

**740**

**LIVES SAVED**

29% Increase

**1,911**

**TISSUE DONORS**

3rd Highest Year Ever

## YEAR AT A GLANCE

In 2022, Donor Alliance, the nonprofit organ and tissue procurement organization for Colorado and most of Wyoming, facilitated more organ transplants than ever before, helping save the lives of 740 people through organ donation and save and heal thousands more through tissue donation. Marking the region's eighth year of growth, the generosity of our community also contributed to a historic milestone as the U.S. officially surpassed 1 million transplants, according to United Network for Organ Sharing (UNOS).

Honor the heroes who said yes, celebrate the lives saved, and acknowledge those still waiting for lifesaving transplants.
