**To fulfill the wish
of eye donors and their families
to help another overcome blindness
through transplantation and research.**

❖ Cornea

- First transplanted 1905
- Cures corneal blindness
- 98% success rate

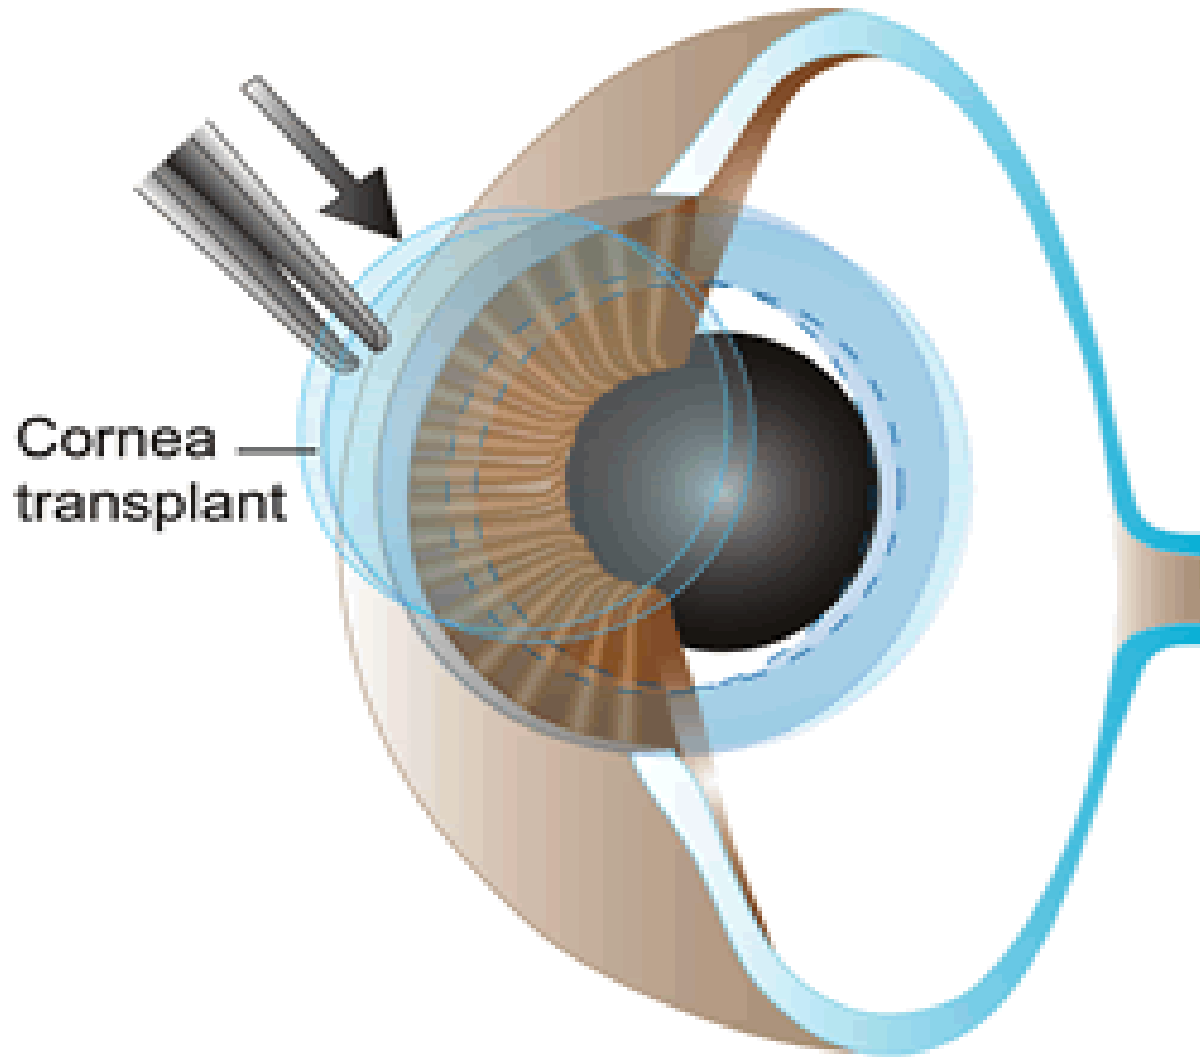

❖ Sclera

- Reconstruction
- Oculoplastics

❖ Limbal Stem Cells

- Produce the outer covering of cornea

What's a micron?

1,000 μm

$\sim 100 \mu\text{m}$

Double-pass EK graft pioneered at RMLEB: 40-65 μm

- ❖ **Total RMLEB eye donors in 2013:
2,133, with 2,021 corneas able to be placed for
transplant**
- ❖ 61 eye donors from The Medical Center of Aurora
- ❖ 61 corneas from these donors were able to cure
someone's blindness through transplantation. 2 scleral
pieces (white part of eye) were used in reconstructive
procedures.
- ❖ Recipients included people in Colorado, 8 other states,
and 5 other countries

- ❖ Local transplant recipients are always first priority for receiving a cornea from RMLEB
- ❖ After looking locally, we'll look nationally to see if any tissue requests are a suitable match
- ❖ Finally, we look internationally at our placement options for the transplantable cornea
- ❖ Transplantable tissue is never discarded for lack of placement

名前は ミノル 實です
 私の住んでいる所は、海と山に囲まれた静かな田舎町です。
 現在は、夫婦 2人暮らしです。
 以前は、良い方の目に 心配があり、見えなくなる不安がありました。
 移植手術を受け、今は趣味を楽しむ事が出来る程になり、
 大変 感謝しています。
 趣味は 盆栽 と、花に実をたがす事です。
 クラウドゴルフも 楽しんでいます。
 どうも ありがとうございます。

My name is Minoru.

The town I live in is a quiet countryside surrounded with hills and a sea.

I live alone with my wife nowadays.

I was worried the good one of my eyes might go blind because it became dim, but the transplant surgery made it possible for me to even enjoy my hobbies. I am so grateful.

My hobbies include *bonsai* and growing fruit trees. I also enjoy playing golf.

Thank you so very much.
